INDEX TO VOLUME XXIX.

[NOTE.—In this index the titles of principal papers and the headings of departments, as *Discussion*, are in italics.]

Adirondack magnetite deposits, 500
Ahlfeld, F., on cassiterite, 493
Allen, V. T., *Petrography and origin of the fuller's earth of southeastern Missouri*, 590–598
Alling, H. L., on martite, 112
Alma mine, Colorado, 244
Alteration, hydrothermal, Wayne County, Missouri, 87
Alunite, 258
Amphibole, 397
Analyses (see Chemical analyses)
Anderson, A. L., *Some pseudo-eutectic ore textures*, 577–589
  on Lava Creek district, 386
  on oxidation of galena, 672
  on sillimanite, 355
Anderson, A. L., and Rasor, A. C., *Silver mineralization in the Banner district, Boise County, Idaho*, 371–387
Angela formation, 333
Anna, Illinois, Petrology of the kaolin deposits near (Grim), 659
Arnold, R., on San Gabriel Mountains, 346
Arsenides, replacement, 640
Arsenopyrite, 377
Asbestos, talc and soapstone, origin, 397
Ashley, G. H., on formation of coal, 195
Aspen district, Colorado, 248
Autoliths, 44
Azegour, Morocco, The molybdenum mine at (Heim), 76
Azolitmin solutions, 303
Azurite, 62

Bain, G. W., *Calcite marble*, 121–139
  discussions by, 397, 703
Ball, C. G., *Kaolinite in Illinois coal*, 767–776
Ballard, S. M., on Boise Basin, 372
Banner district, Boise County, Idaho, Silver mineralization in the (Anderson and Rasor), 371
Barite deposits of the Sinks district, Bibb County, Alabama (Jones and McVay), 761
Barlow, A. E., on silver veins, 748
Barrell, J., on tourmaline, 484
Bastin, E. S., on Aspen district, 248
  and others, on magnetite, 91; on replacement, 580
Bauxite, 289
Bayley, W. S., reviews by, 207, 210, 309, 313, 406, 503, 504, 506, 606, 608, 706, 707, 783
Beck, R., on cassiterite, 492
Behre, C. H., Jr., on Continental Chief mine, 231
  on Leadville district, 218
  on Weston Pass district, 240
  review by, 503
Bell, J. M., on secondary silver, 744
Bentonite, 597
Berg, G., on "rejuvenation," 478
Beryl, 699
Beryl-molybdenite deposit of Chaffee County, Colorado (Landes), 697
Bétier, G., review of book by, 506
Beverly, B., Jr., *Graphite deposits in Los Angeles County, California*, 346–355
Bibb County, Alabama, Barite deposits of the Sinks district (Jones and McVay), 761
Bibliography—
  coal, evolution, 199
  molybdenite, 82
  supercritical phenomena, 469
  tin and tungsten, 432
Billingsley, P., on Boulder batholith, 545
  on pebble dikes, 356
Billingsley, P., and Grimes, J. A., on Boulder batholith, 712, 719
  on Spring Hill gold deposit, 544, 557
Billingsley, P., and Locke, A., on Cordilleran thrust-zone, 574
Bischoff, G., on stannic acid, 422
Bismuthinite, 268
Blanchard, R., and Boswell, P. F., *Additional limonite types of galena and sphalerite derivation*, 671–690
  on limonite, 71
Blondel, F., review of book by, 504, 506

Blum, I., on oxidation of coal, 7
Boeke, H. E., on supercritical phenomena, 461
Bonney, T. G., on greisen, 486
on tourmaline, 483, 491
Books received, 102, 211, 314, 407, 508, 609, 708, 784
Borntraeger, H., on vegetable fiber in peat, 158
Boulder batholith, cooling of, 712
ore deposits, 719
Bournonite, A microchemical method for the determination of (Head and Loofbourow), 301
Boutwell, J. M., on azurite, 64
on malachite, 60, 62
Bowen, N. L., on granophyre and aplite, 737
Bowen, N. L., and Schairer, J. F., and Posnjak, E., on ferric-ferrous ratio, 205
Boxwork, 672
Boydell, H. C., on mineralization temperatures, 475
on South Lorrain district, 742
Brammall, A., and Harwood, H. F., on baueritization, 424
on tourmaline, 491
Brazil, Terra Roxa in São Paulo (Freise), 280
Breccia pipes, 356
Briggs, H. M., on clay in coal, 774
on development of coal, 16, 28
Brongniardite, 581
Broughton, M. N., on fuller's earth, 590
Browne, J. R., on Banner district, 382
Bucher, W. H., review of book by, 309
Buddington, A. F., on intrusive borders, 551
Buena Suerte formation, 335
Bufa formation, 334
Burbank, W. S., on ore deposits of central Colorado, 246
Burrows, A. G., on Gowganda silver area, 729, 743
Butler, B. S., on hematite, 110
on native copper, 64
Butler, B. S., and others, on Tintic district, 357
Butte district, 567

Cadogan coal, 517
Calcite, 381
Calcite marble (Bain), 121
Calvin, R., review of book by, 606
Campbell, A. D., on Gowganda area, 742
Campbell, I., review by, 781
Campbell, J. M., on fluorite, 428
Campbell, M. R., on carbonization of coal, 27
Campbell, W., and Knight, C. W., on silver minerals, 745
Carnot, A., on coal derivation, 534
on nitrogen in coal, 7
Cassiterite, 423, 492
Centnerszwer, M., and others, on critical phenomena of solutions, 459
Chaffee County, Colorado, The beryl-molybdenite deposit of (Landes), 697
Chalcopyrite, 377
Chapman, E. P., and Stevens, R. E., on sphalerite, 226
Charrin, V., review of book by, 783
Chawner, W. D., discussion by, 777
Chazy beds, 130
Chemical analyses—
bournonite, Park City, 302
concretions, Brazil, 288
goldfieldite, 273
iron and carbonates, Orient mine, 322–324, 326
kaolinite and anauxite, Anna district, 662
kaolinite in coal, Illinois, 771
Kittanning coal, Pennsylvania, 526
limestone, Los Lamentos, Mexico, 339, 344
magnetite, Mesabi Range, 757
Nipissing diabase, 735
silver in diabase, 752
Spring Hill stock, 546
tetrahedrite, Coeur d'Alene, 694
Chert, 392
Chrysocolla, 65
Chrysotile veins, distribution, 399
Chudoba, K., review of book by, 406
Clarke, F. W., on graphite, 178
on nitrogen in coal, 7
on peat, 158
Cleavage boxwork, 672
Coal, conversion, 173
desiccation cracks, 768
rate of accumulation, 193
Coal, kaolinite in Illinois (Ball), 767
Coal bed, of western Pennsylvania, Progressive regional metamorphism of the Lower Kittanning (Stadnichenko), 511
Coalification, 3
Coals, Evolution of the mineral (Lewis), 1
Cobalt sill, 733
Coeur d'Alene district, Idaho, Silver-tetrahedrite relationship in the (Warren), 691

Collins, W. H., on granophyre and aplite, 737, 749
Colony, R. J., on replacement, 634
Concretions, São Paulo, Brazil, 287
Conglomerates of the Mesabi Range, Magnetite cementing certain ore (Gruner), 757
Contact-metamorphic deposits, ferric-ferrous ratio in, 203
Cooling intrusions, Time-temperature curves in relation to mineral associations in (Schneiderhöhn), 471
Copper, Paragenesis of the oxidized ores of (Schwartz), 55
Copper minerals of oxide zone, 56
Cornu, F., on kaolin, 485
Cosalite, 580
Cosalite-brongniardite texture, 580
Cotton, L. A., on wolframite and cassiterite, 426
Crane, G. W., on pebble dikes, 356
on Tintic district, Utah, 251
Crawford, R. D., on Chaffee County, 607
Critical and supercritical phenomena of solutions to geologic processes, Relation of (Ingerson), 454
Crosby, I. B., and Kelley, S. F., on earth-resistivity measurements, 438
Crossings, Grass Valley, California, 46
Cuprite, 57

Daly, R. A., on basalt magma, 205
on magmatic assimilation, 550, 553
Darton, N. H., on faulting, 332
Daubrée, A., on tin migration, 423, 424
Davies, A. M., review of book by, 608
Davy, M., on bismuthinite, 493
Decay of vegetal matter, stages of, 20
Del Valle, A., and Iruegas, P. F., on Minas de Setolazar district, 298
Derry, D. R., on pegmatites, 425
Desch, C. H., review of book by, 707
Deutsches Erdöl (review), 783
Diagrams—
autoliths in granodiorite, 44
Boulder batholith, cooling curves, 714
clay mineral, dehydration, 663
composite veins, Příbram, 144
earth-resistivity depth profiles, 447
Gish-Rooney earth-resistivity instrument, 440
Grass Valley, vein features, 47
iron in igneous rocks, 203
Kittanning coal, metamorphism, 522, 524
Leadville district, minerals, zoning, 223
Diagrams—*Continued*
Stewart Island, tin-tungsten lodes, 416, 420
Diamond saw holder, 703
Diatomaceous earth in Oregon, 95, 604
Diatomite, specific gravity, 95
Dip and strike problems, 503
Discussion and informal communications—
Adirondack magnetite deposits (Osborne), 500
Diatomaceous earth in Oregon (Eardley-Wilmot), 95; (Smith), 604
Ferric-ferrous ratio in contact-metamorphic deposits (Lasky), 203
A holder for a diamond saw (Patton), 703
How to determine probable changes in primary mineralization with increasing depth (Stočes), 93
The Miami-Picher zinc-lead district (Fowler and Lyden), 390; (Tarr), 779
Petrography of fuller's earth deposits (Newton), 307
Problem of serpentinization (Bain), 703; (Chawner), 777; (Dresser), 306
Serpentinization: origin of certain asbestos, talc and soapstone deposits (Bain), 307
Talc as a lubricator for polished surfaces mounted in bakelite (Myers), 502
Transportation of gold by organic solutions (Fetzer), 599
Doelter, C., on malachite, 72, 73
Dresser, J. A., discussion by, 306
on serpentinization, 703
Duparc, L., on Azegour, Morocco, 76

Eardley-Wilmot, V. L., discussion by, 95
Earle, K. W., review of book by, 503
Earth resistivity method, Reconnaissance of buried river gorges by the (Wilcox and Schwartz), 435
Eaton, G. F., on Pleistocene mammals, 345
Editorials—
Petroleum engineer v. petroleum geologist (Wrather), 388
Ehrenburg, D. O., and Watson, R. S., on earth-resistivity measurments, 442
Ehrenberg, H., on melnikowite, 635
Ellestad, R. B., analysis by, 757

Ellsworth, H. V., on ores of Cobalt, Ontario, 745
Emmons, R. C., on differentiation of a sill, 723
Emmons, S. F., on silver enrichment, 648
Emmons, S. F., Irving, J. D., and Loughlin, G. F., on Leadville district, 215
Emmons, W. H., on chrysocolla, 68
on malachite, 58
on native copper, 64, 73
Emmons, W. H., and Calkins, F. C., on aplite zones, 551
on azurite, 64
Epidotization, 89
Erdmann, E., on coalification, 536
Erdölkrise (review), 406
Evolution of the mineral coals (Lewis), 1
Erzmikroskopie (review), 607

Famatinite, 267
Farmin, R., *"Pebble dikes" and associated mineralization at Tintic, Utah*, 356–370
Farrell, M. A., and Turner, H. G., on bacteria in coal, 535
Feldspars, determination (review), 406
Fenner, C. N., on residual magma, 454, 455, 461
Ferguson, H. G., and Bateman, A. M., on tourmalinization, 483
Fersmann, A., on emerald, 701
Fetzer, W. G., discussion by, 599
Finlayson, A. M., on fluoriferous mica, 423
Fischer, F., on formation of coal, 534
Fissure veins at Příbram, Genesis of the (Stočes), 140
Flint, R. F., review of book by, 503
Fluorine and tin-tungsten migration, 423
Fogle, M. E., and Olin, H. L., on fuller's earth, 670
Forbes, D., on tourmaline, 483
Fort Snelling buried gorge, 449
Foshag, W. F., *The ore deposits of Los Lamentos, Chihuahua, Mexico*, 330–345
Fossils, study of, 101
Fowler, G. M., and Lyden, J. P., discussion by, 390
on Tri-State district, 390, 779
Fracture systems at Grass Valley, California, Structural history of the (Johnston and Cloos), 39
Francis, W., and Wheeler, R. V., on oxidation of coal, 7
Freise, F. W., *The "Terra Roxa" in São Paulo, Brazil*, 280–293
on gold transportation, 599
Freyberg, B. v., review of book by, 706
Füllungsgrad, 463
Fuller's earth, Bath, England, 307
Fuller's earth of southeastern Missouri, Petrography and origin of the (Allen), 590
Fusain, 520

Galena, 379
Galena and sphalerite derivation, Additional limonite types of (Blanchard and Boswell), 671
Galena-calcite textures, 587
Galena-cosalite graphic intergrowth, 578
Galena-pyrargyrite texture, 584
Gallagher, D., books received, 102, 211, 314, 407, 508, 609, 708, 784
Ganguli, A., on humic acid, 603
Garnet, 419
Gases in coal, 17
Geijer, P., on martitization, 112
Genesis
(see also Origin)
beryl-molybdenite deposit, Colorado, 700
Llallagua-Uncia tin deposit, 495
Spring Hill gold deposit, 557
Genesis of the fissure veins at Příbram (Stočes), 140
Genetic relations of silver deposits and Keweenawan diabases in Ontario (Moore), 725
Genetic significance of some tin-tungsten lodes in Stewart Island, New Zealand (Williams), 411
Geologic maps—
Cobalt area, Ontario, 734
São Paulo, Brazil, 281
Sinks district, Alabama, 762
Stewart Island, Tin Range, 414
Geologic processes, Relation of critical and supercritical phenomena of solutions to (Ingerson), 454
Geology, Azegour area, Morocco, 78
Banner district, Idaho, 372
beryl-molybdenite deposit, Colorado, 698
graphite deposits, Los Angeles County, 348
Grass Valley, California, 40
Leadville district, 218
Llallagua-Uncia district, 481

Geology—*Continued*
Los Lamentos, Mexico, 332
Minneapolis and St. Paul, 435
molybdenum mine, Morocco, 77
Orient Mine, Colorado, 318
Sinks district, Alabama, 761
Spring Hill, Montana, 544
Stewart Island, 411
Terra Roxa region, Brazil, 280
Texas (review), 313
Tintic district, 357
Vermont marble belt, 123
Gevers, T. W., and Frommurze, H. F., on pegmatites, 418, 423
Gilbert, G., on magnetite and hematite, 112
Gilluly, J., on Mercur and Lion Hill jasperoid, 369
Gold, transportion by solutions, 599
Gold deposit, near Helena, Montana, Spring Hill (Jones), 544
Goldfield, Nevada, The rich ores of (Tolman and Ambrose), 255
Goldfieldite, 270
Gordon, E. R., on Twin Buttes district, Arizona, 108
Gordon, S., on phosphates, 495
Granodiorite, 548
Graphite deposits in Los Angeles County, California (Beverly), 346
Grass Valley, California, Structural history of the fracture systems at (Johnston and Cloos), 39
Graton, L. C., on leptothermal zone, 386
on zoning, 221
Graton, L. C., and Murdock, J., on native copper, 65
Greene, G. U., on cassiterite, 493
Greig, J. W., and others, on silica, 462
Greisen, Stewart Island, 417
Grim, R. E., *Petrology of the kaolin deposits near Anna, Illinois*, 659–670
on fuller's earth, 307, 668
on quartz, 593
Gropp, W., and Bode, H., on coal metamorphism, 536
Grosclaude, R., on duparcite, 79
Grout, F. F., on endomorphism 549
on magnetite, 109
on tourmaline, 491
Groves, A. W., on fluoriferous mica, 423
Gruner, J. W., *Magnetite cementing certain ore conglomerates of the Mesabi Range*, 757–760
Gruner, J. W.—*Continued*
on hematite, 111, 113
review by, 607
Guild, F. N., *Microscopic relations of magnetite, hematite, pyrite, and chalcopyrite*, 107–120
on copper pitch, 68
on galena and proustite intergrowths, 586
Gypsum, replacement of, 650

Hannay, J. B., and Hogarth, J., on solutions, 457
Harker, A., on Grainsgill greisen, 418
review of book by, 507, 781
Head, R. E., and Loofbourow, R. W., *A microchemical method for the determination of bournonite*, 301–305
Hébrard, M. F., on Azegour, Morocco, 76
Hegemann, G., on mineral sequence, 480
Heiland, C. A., on resistivity measurements, 446
Heim, A., *The iron ores of Minas del Rif, Spanish Morocco*, 294–300
The molybdenum mine at Azegour, Morocco, 76–83
Hess, F. L., on molybdenum, 697
on pegmatites, 741
Hess, H. H., on asbestos veins, 306
on serpentinization, 397, 777
Hewett, D. F., on dolomitization, 344
on Wood River region, Idaho, 250
Hickling, H. G. A., on carbonization of coal, 27, 28
on kaolinite in coal, 775
on vitrain, 519
Hickok, W. O., on Cornwall district, 465
on ferric iron, 203
Hilltop mine, Colorado, 238
Hoffmann, G. C., on coal, Canada, 538
Hoover, H. C., on mines, 721
Hore, R. E., on granophyre and aplite, 737
on silver veins, 749
Hotchkiss, W. O., and others, on earth-resistivity measurements, 438
Howe, E., on Grass Valley, California, 39, 51
Hubbert, M. King, on earth-resistivity measurements, 439, 442
Hüttenhain, D. M., on Siegerland veins, 480
Humic complex, 6
Hurst, M. E., on replacement, 620

Hydrothermal deposit in Wayne County, Missouri (Tarr and Bryan), 84

Idaho, Silver mineralization in the Banner district, Boise County (Anderson and Rasor), 371
Illinois coal, Kaolinite in (Ball), 767
Ingersoll, L. R., and Zobel, O. J., on heat conduction, 473, 712
Ingerson, E., *Relation of critical and supercritical phenomena of solutions to geologic processes*, 454–470
Iron ores of Minas del Rif, Spanish Morocco (Heim), 294
Isle La Motte limestone marbles, 128

Jeans, J., review of book by, 210
Johannsen, A., on composition of rocks, 731
Johnson, J. H., on Paleozoic of Colorado, 318
Johnston, W. D., Jr., and Cloos, E., *Structural history of the fracture systems at Grass Valley, California*, 39–54
Jones, E. L., Jr., on Boise Basin, 372
Jones, I. W., on springs in lignite fields, 30
Jones, R. H. B., *Temperature relations to ore deposition*, 711–724
on Hudson Bay Mountain district, 721
Jones, V., *Spring Hill gold deposit, near Helena, Montana*, 544–559
Jones, W. B., and McVay, T. N., *Barite deposits of the Sinks district, Bibb County, Alabama*, 761–766
Jones, W. R., on pegmatites, 425, 426
on tin-tungsten deposition, 429
on topaz, 418
Jongmans, W. J., and Koopmans, R. G., on South Limburg coal, 536

Kaolin, 283, 663
Kaolin deposits near Anna, Illinois, Petrology of the (Grim), 659
Kaolinite in Illinois coal (Ball), 767
Kaolinization, 485
Katwinkel, R., on coking of coal, 528
Keith, S. B., on serpentine, 399
Keith, S. B., and Bain, G. W., on asbestos, 703
Kellett, J. G., on clay in coal, 774
Kelly, W. P., and others, on montmorillonite, 669
Kerr, P. F., on montmorillonite, 590
review of book by, 207
Kew, W. S. W., on San Gabriel Mountains, 346
Keweenawan diabases in Ontario, Genetic relations of silver deposits and (Moore), 725
Kirkham, V. R. D., on Payette formation, 387
Kittanning coal bed of western Pennsylvania, Progressive regional metamorphism of the Lower (Stadnichenko), 511
Kittl, E., on native bismuth, 493
Knaebel, J. B., on Grass Valley, California, 39
Knight, C. W., on Bruce Mines veins, 747
on Cobalt district, 728
Knopf, A., on Aspen district, 248
on Spring Hill gold deposit, 544, 557
on tourmaline, 484
on Yerington district, 461
review of book by, 503
Knopf, E. B., review by, 97
Koeberlin, F. R., on tin veins, 483
Koenigsberger, J., review of book by, 210
Korn, D., review of article by, 97
Krüger, K., review of book by, 406
Kuntze, O., on accumulation of vegetal matter, 193

Ladoo, R. B., on fuller's earth, 592
Lafille, L., review of book by, 783
Lamar, J. E., and Sutton, A. H., on Cretaceous and Tertiary sediments, 666
Landes, K. K., *The beryl-molybdenite deposit of Chaffee County, Colorado*, 697–702
Lasky, S. G., discussion by, 203
on ferric iron, 203
on systems iron oxides, 110
Leadville district, Colorado, Zoning of ore deposits in and adjoining the (Loughlin and Behre), 215
Lenard, P., review of book by, 101
Leonardon, E. G., and Kelly, S. F., on earth-resistivity measurements, 438
Lessing, R., on mineral matter in coal, 774
Leverett, F., on Minneapolis and St. Paul area, 436
Lewis, J. V., *The evolution of the mineral coals*, 1–38, 157–202

Lignite conversion, to subbituminous coal, 170
Limonite, 70
Limonite deposits at the Orient Mine, Colorado (Stone), 317
Limonite moss, 683
Limonite types of galena and sphalerite derivation, Additional (Blanchard and Boswell), 671
Lindgren, W., on Boise Basin, 372
on chrysocolla, 65, 68
on Goldfield, Nevada, 255
on Grass Valley, California, 39, 51
on malachite, 58, 62
on Ontario silver deposits, 750
on pseudo-eutectic textures, 580, 589
on Tintic jasperoid, 368
review of book by, 401
Lindgren, W., and Loughlin, G. F., on malachite, 60
on Tintic district, Utah, 250, 357
Lindgren, W., and others, on pseudo-eutectic textures, 383
Llallagua-Uncia tin deposit (Samoyloff), 481
Locke, A., Billingsley, P., and Schmitt, H., *Some ideas on the occurrence of ore in the western United States*, 560–576
Locke, A., on leached outcrops, 671
on limonite, 71
on metasomatism, 620
Logan, C. A., on Grass Valley, California, 39
Longwell, C. R., review of book by, 503
Los Angeles County, California, Graphite deposits in (Beverly), 346
Los Lamentos, Chihuahua, Mexico, The ore deposits of (Foshag), 330
Los Lamentos formation, 334, 344
Loughlin, G. F., on Cripple Creek, 562
Loughlin, G. F., and Behre, C. H., Jr., *Zoning of ore deposits in and adjoining the Leadville district, Colorado*, 215–254
Lovering, T. S., on heat conduction, 712
on ore deposits of Boulder County, Colorado, 246
Lyddia mine, Colorado, 236
Lyden, J. P., with Fowler, G. M., discussion by, 390

McAlister, D. A., on tourmalinization, 483, 485, 497
on wolframite and cassiterite, 426
MacBoyle, E., on Grass Valley, California, 39
McCartney, G. C., on Chester sandstones, 666
McFarlane, G. C., on formation of coal, 195
MacKenzie, G. S., analyses by, 735
McQueen, H. S., on clays, 668
Magdalena district, New Mexico, 249
Maghemite, 116
Magnetite, 90
Magnetite, hematite, pyrite and chalcopyrite, Microscopic relations of (Guild), 107
Magnetite cementing certain ore conglomerates of the Mesabi Range (Gruner), 757
Malachite, 58
Malisoff, W., and Egloff, G., on solubility of carbon dioxide in water, 18
Maps (see also Geologic maps)—
Grass Valley, California, 42
Kittanning (Lower), coal, 512
Leadville district, Colorado, 217
Los Angeles County, graphite, 347
Ontario, silver-bearing areas, 727
